

# Product line card

Over 50 years of service. One team for production hardware, custom components and dependable supply.

## Fasteners & hardware

Bolts, machine and socket screws, nuts, washers, rivets, inserts, pins, retaining rings and anchors.

Standard assemblies, production lines and maintenance.

## Custom components

CNC turned and Swiss machined parts, spacers, sleeves, pins, shafts, stampings, castings and forgings.

Sourced to your approved drawing and requirements.

## Electrical & industrial

Terminals, connectors, cable ties, wire-management products, fittings, tubing, clamps and related hardware.

Support for panels, equipment and integrated assemblies.

## MRO & production supplies

Cutting tools, abrasives, hand tools, safety supplies, adhesives, lubricants and shop consumables.

Keep workstations supplied and maintenance moving.

**LET'S TALK ABOUT YOUR NEXT REQUIREMENT.**

Representative product imagery. Availability and specifications are confirmed with your quote.

# Supply that supports you

From a single requirement to a recurring program, we help coordinate the parts, information and delivery your team needs.

## Application support

Review drawings, materials, finishes and assembly needs with our team. Alternatives are subject to your approval.

## Kitting & packaging

Group components by job, assembly or work area. Define counts, labels, packaging and delivery sequence in advance.

## Quality & documentation

ISO 9001:2015 certified quality management system. Request traceability, certifications, FAI or PPAP support with your RFQ.

## Managed inventory

Build a replenishment plan around usage, lead time and agreed stock levels. Review changing demand together.

## Secondary operations

Coordinate specified processing, coatings, patches and related services through qualified sources.

## Sourcing & delivery

Consolidate requirements and coordinate releases around your production schedule and agreed delivery needs.
